

Metamark M-PPF[®] R

Self-Healing TPU Paint Protection Film

Metamark M-PPF[®] R is an optically clear, high gloss paint protection film, offering excellent performance through self-healing, non-yellowing, top-coat technology. The product offers high levels of protection to the factory paint finish, giving resistance to contaminants, abrasion, scratches, stone chips, bird soiling, and daily wear.

Metamark M-PPF[®] R is protected by a cap sheet which should be removed before application, and is covered by our 5 year MetaSure Warranty.

All of the Metamark Paint Protection Films use advanced TPU film technologies to ensure the highest level of performance.
