# ACRYLIC BENDING MACHINE

Far-infrared  
Heating

Temperature  
Adjustable

Circulating Water  
Cooling System

Length Adjuster 40-330mm

Available Angle 0-160°

Water Pump and Water Pipe

**ABM** SERIES

Acrylic bending machine is also called plastic plate bending machine, soften and bend the plastic plate by heating.

#### Temperature Adjustable: 0-600°C

Temperature adjustable during 0-600 °C, according to different thickness of sheet.

#### Heating Gap Width Adjustable: 0-20mm

According to different material and thickness of various sheets, heating gaps width can be adjustable.

#### Circulating Water Cooling System

Adopted advanced infrared heating technology and circulating water cooling system, ensure fast cooling.

#### Applicable Materials and Size

Plastic plate: Acrylic, Plexiglass, PVC, PC, ABS, PP etc.

Sheet thickness 1-10mm, bending length  $\leq 650\text{mm}/\leq 1250\text{mm}$ .

#### Sample Pictures

#### Special Version

Equipped circulating cooling water system, replace the water after heavy and longtime working, temperature up to 50 °C.

Ensure the machine cool completely, turn off the heating tube gap after working.

**ABM** SERIES
