

WHAT IS A MASTERPIECE?

New 3M™ FASARA™ Glass Finishes

A masterpiece is a person's greatest work. An artist expresses their imagination with originality, changing the way themselves and others view their art. Making a spectacle of form and function, escaping normality.

The range of 3M™ FASARA™ Glass Finishes offers you, the artist, a new visual dimension with no limits or boundaries.

With an advanced collection, FASARA™ Glass Finishes allows you to create a space that captures the world's beauty while maintaining a practical application. Inviting you to capture the essence of nature and harness natural light on your own terms. The new on-trend gradation and natural patterns deliver a beautiful balance between practicality and creativity by tailoring light and shadow, forming a diffusion of light or creating privacy.

Broaden your imagination as a master of your own space without compromising on the long-celebrated features of easy application, hassle-free maintenance and unparalleled durability.

Create your masterpiece with FASARA™ Glass Finishes.

FASARA™
Glass Finishes

Introducing 21 New Designs for 2022

Natural Series

“Optically Organic”

Delivering the look and feel of nature to your fingertips, the Natural Series captures the optically organic essence of the outdoors and brings it into your space. From the enhanced textures reflected in our 'Washi' finishes to the essence of stone created by the speciality matte finishes, the new range of FASARA™ Glass Finishes will add a true sense of nature and other unique surfaces to your space while beautifully expressing light and shadow.

Gradation Series

“Holistic Harmony”

Our popular Gradation Series works harmoniously with its setting to maximize available light. A space where light is not only welcomed by the use of FASARA™ Glass Finishes, but encouraged, it delivers a true holistic harmony with nature. Ensuring privacy is kept without creating a sense of closure. With a variety of configurations to capture your privacy and design needs, the new range of patterns deliver simple elegance while enhancing space and natural light into your built environment.

Design & Privacy

3M™ FASARA™ Glass Finishes provide a perfect combination of design and privacy without losing the beauty of natural light or creating a sense of closure. Available in a variety of patterns to meet your design needs.

Quality & Durability

3M™ FASARA™ Glass Finishes are based on a durable polyester film (non-PVC) with a pressure-sensitive adhesive backing. Designed with high quality printing for a consistent appearance and durable inks for reliable installations.

Easy to Install & Clean

3M™ FASARA™ Glass Finishes can be easily applied to most new or existing glass surfaces. They require no extra hardware or setup - and no added maintenance or special cleaning. Also, as needs change, these decorative films can be quickly applied and removed.

Remodel & Reuse

By refreshing rather than replacing existing glass surfaces, you can help reduce landfill waste and obtain LEED credits to support your sustainability goals — for beautiful designs you can feel good about.

Feeling is Believing
